

Tytuł: Be Good Or Be Gone

I've got something to tell you baby

In the arc of a love affair
Lies the point of no return
First you lose your self respect
Then you hide all the hurt

Well, I've been here thinkin'
Long enough to figure out
That a change has got to come
And it's all up to you

Be good or be gone
Love me or leave me baby, leave me alone
Cause I can be real bad baby, all by myself
Umm, one day you're gonna find yourself, by yourself

You see the choice is so simple now
Cause there really is no choice to make
I not gonna let you treat me badly
No, I won't be makin' that mistake
And it's all up to you

Be good or be gone
Love me or leave me baby, leave me alone
Cause I can be real bad baby, all by myself
Umm, one day you gonna find yourself, by yourself

Make a decision, make up your mind
Give me my proper respect and baby, don't ever forget
That a real love is precious and rare
But you've got to be ready to give, and ready to share
It's all up to you

Be good or be gone
Love me or leave me baby, leave me alone
Cause I can be real bad baby, all by myself
Umm, one day you gonna find yourself, by yourself
